## Profile

Passionate Software Engineer with strong learning abilities and the capacity to adapt quickly to new technologies. Skilled in delivering high-quality software solutions in challenging and fast-paced environments, while maintaining a positive and collaborative attitude. Known for being a friendly team player with effective communication and problem-solving skills, striving to continuously improve and contribute to innovative projects.

## Education

- **Shivalik College of Engineering**, Dehradun, Uttarakhand
  - B.Tech in Computer Science and Engineering (2022–2026)
- **Hills International School**, Pauri, Uttarakhand
  - Senior Secondary (Class XII), PCM Stream (2022)
  - Secondary (Class X) (2020)

## Projects

### Real Estate Website 📄

- **Problem Statement:** Difficulty for users to explore, compare, and filter property listings effectively across devices.
- Developed a responsive and user-friendly real estate web application using React.js, optimized for smooth performance across devices.
- Built dynamic property cards with integrated image rendering, search, and filter features for enhanced listing interactivity.
- **Technologies:** HTML, CSS, JavaScript, React.js

### Gemini Chatbot 📄

- **Problem Statement:** Lack of real-time, intelligent, and context-aware conversational interfaces for web users.
- Built an interactive AI-powered chatbot using the Gemini API and React.js to provide real-time conversational responses.
- Implemented a clean and responsive chat interface with dynamic message rendering for a seamless user experience.
- **Technologies:** HTML, CSS, JavaScript, React.js, Gemini API

### Shopping Cart Web Application 📄

- **Problem Statement:** Need for a simple and efficient web-based shopping experience with dynamic cart management.
- Designed a dynamic shopping cart application featuring real-time cart updates, product filtering, and fully responsive layout.
- Focused on delivering a smooth user experience with a clean UI, lightweight structure, and clear product categorization.
- **Technologies:** HTML, CSS, JavaScript

## Skills & Abilities

**Languages:** C++, Java, Python, JavaScript, SQL

**Frontend:** HTML, CSS, React, Tailwind CSS, Node.js

**Databases:** MySQL, MongoDB

**Tools / Platforms:** Git, GitHub, Postman, VS Code

**Problem Solving:** Solved 280+ [LeetCode](https://leetcode.com) Problems, 370+ Problems solved on [Codolio](https://www.codio.io)

## Certifications & Internships

- **Web Development and Designing Intern** — Oasis Infobyte (1-Month Internship)  
Gained hands-on experience in building and designing responsive web applications using HTML, CSS, and JavaScript.
- **Full Stack Web Development Certification** — Udemy (12-Hour Course)  
Completed a comprehensive course covering frontend and backend technologies including HTML, CSS, JavaScript, React, Node.js, and MongoDB.
