Profile

Passionate Software Engineer with strong learning abilities and the capacity to adapt quickly to new technologies. Skilled in delivering quality software solutions under pressure, with a positive and collaborative attitude. Known for being a friendly team player with effective communication and problem-solving skills, striving to continuously improve and contribute to innovative projects.

Projects

REAL ESTATE WEBSITE

- Built a responsive and user-friendly real estate website using HTML, CSS, JavaScript, and React.js, designed to enhance the property browsing experience with intuitive navigation and seamless access to listings.
- **Technologies Used:** HTML, CSS, JavaScript, React.js
- **Key Features:**
  - Responsive design for optimal performance on desktops, tablets, and smartphones
  - User-friendly interface with efficient property search and filtering options
  - Dynamic display of property details and images using interactive React components

Source Code: github.com/Anshul123B/Real-Estate-Website

SHOPPING CART WEB APPLICATION

- Built a responsive shopping web application using HTML, CSS, and JavaScript, focused on providing a smooth and user-friendly shopping experience with intuitive navigation and fast product browsing.
- **Technologies Used:** HTML, CSS, JavaScript
- **Key Features:**
  - Responsive design for seamless use across desktops, tablets, and smartphones
  - User-friendly interface with clear product categories and filters
  - Dynamic product pages with images, descriptions, and pricing update
